

# THE BATTLE LINES HAVE BEEN DRAWN.

Introducing the latest innovations from Track: the Arsenal Angular Particle™ and the Arsenal Aggressive Particle™. Two powerful weapons for the competitive bowler, their performance helps to minimize misfortunes on tougher lane conditions during tournament play.

The Arsenal series features Track's newest coverstock, the PEAK™ particle coverstock, which combines the benefits of particle's midlane traction with the stronger, continuous backend of reactive resins.

See how Track's newest armaments compare:

#### Arsenal Angular Particle

- Factory Clean N Sheen Polish
- Medium-Density Flip Block for Flare
- Conserves Energy for a More Angular Traction
- Best for Medium Oil Conditions and Inside Angles
- #1 Weapon for Medium to Slower Ball Speeds

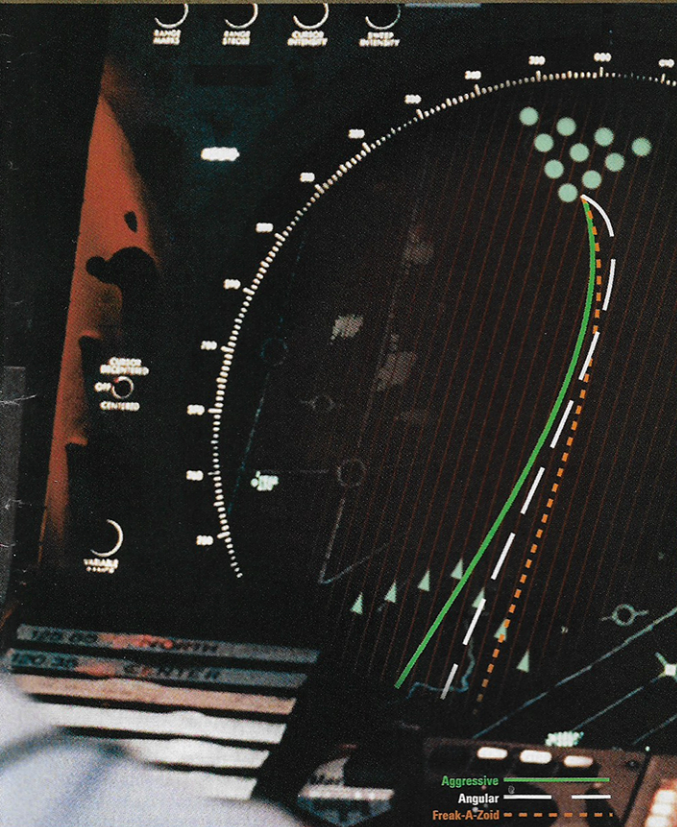

#### Arsenal Aggressive Particle

- Factory Sanded 1500 Smooth
- High-Density Flip Block for High/Medium Flare
- Stronger Midlane Roll and More Breakpoint
- Best for Heavier Oil Patterns
- #1 Weapon for Faster Ball Speeds

The Arsenal series, along with the controllable Freak-a-Zoid™ reactive resin, will give you the confidence to take aim and fire upon your opponents. They'll never know what hit 'em.
