

A Blast from the Past.

I'm Phil Cardinale, President of Track, and that good looking ball is the Critical Mass Code Red Special Edition. To celebrate our 10th anniversary, we're re-introducing this successful and newly enhanced Code Red. Ready for the high tech specs? We'll start with the core that made it so popular. It's a modified 2-piece core featuring a Powertech™ ceramic core, a low density stabilizer outer core and a super dense Flip-Block. And for a little extra magic we've added our POWERPLUS with gold MICA coverstock. The end result is a powerful yet controlled backend reaction requiring less hand action to achieve maximum revolutions. This ball reacts incredibly well on wet/dry lane conditions. Like I said, it's a blast from the past, with a touch of the future.
