

It's Crunch Time...

Do you have what it takes?

Every bowler dreams of striking in the tenth frame to win a match or tournament. Now you have the tool to make that dream come true... the Crunch Time. The Crunch Time uses the core of the Triton Elite, one of the most popular and versatile Track cores to date. This core design coupled with the Power Plus EX resin coverstock creates a ball with good length and a strong and controllable backend. Come through in the clutch time with the CRUNCH TIME.
