

# PEARL

**THE CORE IS EMB. THE LOOK IS PEARL.  
THE RESULT IS COMPLETE DOMINATION.**

If you thought our bowling staff at Track Inc. designs balls just for good looks, think again. Like the original EMB™, the EMB™ Pearl features the winning combination of Track's dynamic patented HyperActive™ core technology and ProTraktion™ Plus pearlized shell, but with a bit more snap added...for more than just good looks. With our EMB Pearl, you'll notice increased length, unleashing its energy with more bite at the breakpoint! The end result? Well, if you've experienced the readability and awesome power of the EMB, you'll know what the result will be with our pearlized version. A good looking ball that looks good going through the pocket. The Track EMB Pearl. The only other looks you'll see is your competition looking for more excuses.
