

We Made It Better Than It Was.

Better. Stronger. Faster.

The FREAK-A-ZOID

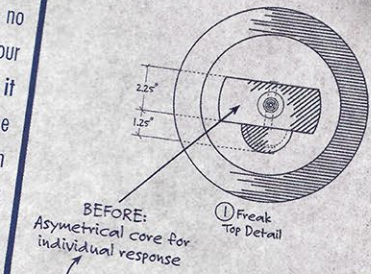

We combined cutting-edge Track technology to produce a ball like no other — the Freakazoid. We took our popular Morpheus core and made it symmetrical to provide more controllability without losing power. Then we paired this new core with our Power Plus Reactive coverstock and lowered the overall Rg to increase the rev rate. The results? Freakazoid's unbelievable control and amazing performance... and your winning game.
