

Guaranteed to **FLIP** You Out

The FREAK OUT™

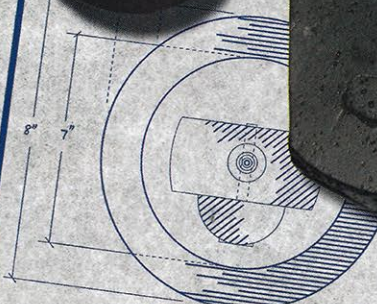

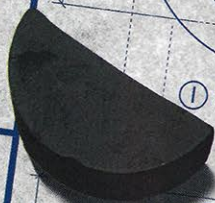

Just when you thought it was safe to go back into the bowling center! Track is proud to introduce the next generation in Morpheus technology, the **Freak Out**. The Freak Out's altered core profile and a lighter load of WOW II particle coverstock create more length through the front of the lane and a stronger backend motion than its predecessor "The Freak". The "Freak Out" will be an excellent complement to the Freak when extra length and backend are desired.

- Morpheus core revs up harder when it encounters lane friction, creating a pronounced angular break point.
- Reads the break point easily, continuing all the way through the pins.
- WOW II particle shell allows the ball to handle diverse lane conditions and diverse styles.
- Maintains axis rotation longer to combat lighter oil patterns.
- Dynamically spun at the factory to ensure precise ball reaction.

SPECS

Hook Rating (Dull/Polished)	28-22
Length (1-10)	5.5
Backend (1-10)	9
Core Technology	*Morpheus-High Revving
Core Power Rating (1-10)	8.5
RG	2.52
Differential	0.046
Flare Potential (inches)	5
Coverstock	WOW 2-Particle
Color:	Purple/Silver/Red Multicolor
Friction Rating (1-10)	7.5
Factory Finish	Compound Magic Shine
Recommended Polish	Flip
Reaction Shape	Medium with Carrydown
Lane Condition	

*Patent Pending
