

Wreak Havoc On Your Competition

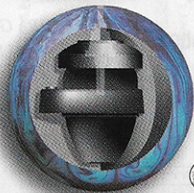

High tech with a smaller price tag. That's what you get with the Havoc. The Havoc is the first mass bias technology ball in the Track line that is NOT at the high performance price point. The Havoc's Horizontally Biased Plate (HBP) technology allows for a wider range of motion when the mass bias is placed in different locations. HBP technology and Havoc's Power Plus coverstock create an ideal benchmark ball for all styles of play.

Wreak Havoc on the lanes.

SPECS
