

CAN'T DECIDE WHICH ONE?

WE CAN'T EITHER!

When you think of the Hex, looks and performance at an affordable price come to mind. When you see the Hex-treme, you think looks, performance and value. The Hex-treme employs dual torque block's, which create the same flare potential as the Hex. The Hex-treme

uses a polished multi-color Super-Flex shell which combined together with the Medium high rg core produce's an explosive backend reaction on the lane. The Hex-treme has the looks, the power and the versatility to make you smile all day long!
