

It's unstoppable!
It's intimidating!
It's

**SHEER
 TRACK
 HAVOC**

And it's wreaking destruction wherever it goes. Harder synthetic lane surfaces and slicker oils -- and more of them -- are no match for Sheer Havoc. With Sheer Havoc we've battled the challenges of changing lane conditions and won. We updated the Heat 2 to match today's bowling environment, producing a ball that complements, but is different than, Havoc. Sheer Havoc is just as strong as Heat 2 on the backend but with more mid-lane control. Use Havoc on the fresher backends to control your breakpoint and follow with Sheer Havoc when the heads begin to hook. Then your game will be unstoppable, too.

SPECS

HOOK RATING (DULL-POLISHED).....	27-20
LENGTH (1-10).....	4
BACKEND (1-10).....	6
CORE TECHNOLOGY.....	POWER REV
CORE POWER RATING (1-10).....	7
RADIUS OF GYRATION.....	2.47
DIFFERENTIAL.....	.048
