

INTRODUCING THE NEW PEARL STOMP.™ Let this baby loose and your opponent will never know what hit him. It's the perfect complement to our original Stomp.™ Hard on the competition, easy on the wallet, this pin crusher hits the lanes with more high performance features for less money. The reduced flare potential in our Core² Technology design combined with our new POWERPLUS™ III pearl coverstock gets the ball further down the lane before it makes a powerful turn into the pocket. In fact, it has the sharpest angle of entry of all current Track balls on medium lane conditions. Track's new Pearl Stomp. It's going to make a big impression.

EVOLUTIONARY. REVOLUTIONARY.
