

IN THE VAGUE WORLD OF BOWLING BALLS

THE BEST IS STILL BLACK AND WHITE

T-SHARK:

A reactive tackafied resin ball designed to roll then hook.

Most resin balls skid then snap, a reaction defined by the Pros as a 2-4-8-10/ Greek Church reaction — it looks nice but scores suffer. Designed to roll in the front part of the lane and cheat in the back part, making the T-Shark a readable, predictable, playable resin ball.

T-SHARK STAFF SHIRT: 50/50 cotton and polyester with a T-Shark logo embroidered on left chest and Track logo on right shoulder.

T-SHARK PRO TOWEL: These are the towels our Pro staff use. Made of 100% cotton, they're oversized and feature the T-Shark and Track logos. 29" x 16".

T-SHARK DOUBLE TOTE BAG: Improved heavy support rings enhance this classic double bag which holds 2 balls and shoes. Ideal 2nd bag for the serious bowler or primary bag for the space conscious. Large T-Shark logo on both sides of bag.

T-SHARK STAY-DRY BAG: Designed to maintain a sure grip and confident feel during those pressure shots. Keeps hands dry yet won't cause build-up in finger holes. Large overstuffed bag lasts a long, long time.
