

You have "Threat"-ened the competition, now Thrash 'em

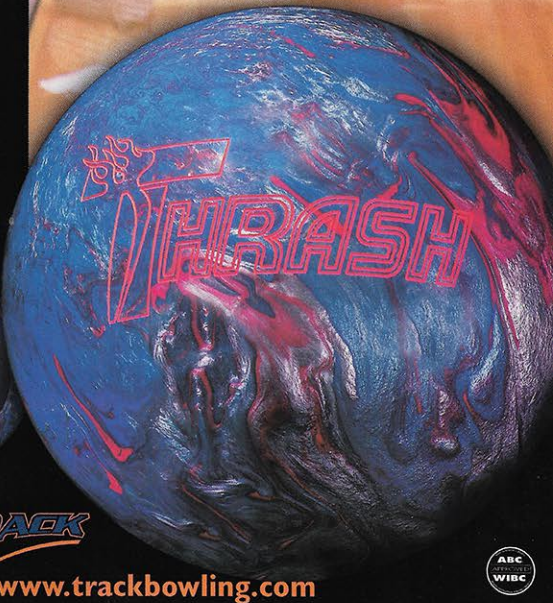

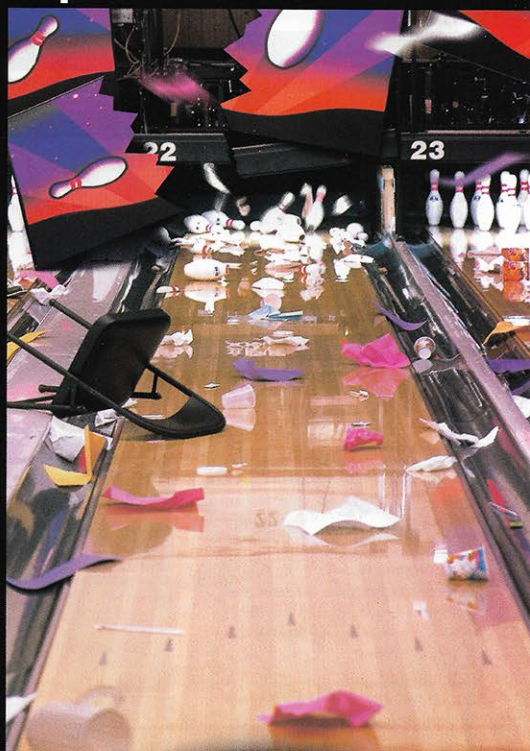

Thrash - (verb) 1. To hit hard or make a series of violent and uncontrolled movements. 2. To swing, beat, or strike in the manner of a rapidly moving flail. 3. To beat or whip severely. 4. To defeat thoroughly. 5. To defeat completely or by a wide margin, as in an athletic contest. 6. To defeat utterly; Vanquish.

No matter how you define it. It just strikes! Introducing the Thrash, the latest addition to the Track arsenal. The Thrash is the perfect balance of length and backend. The modified "Flare-Ring" core helps the Thrash navigate the front of the lane while the WOW II Pearl coverstock provides enough traction to give the bowler a strong arcing backend reaction. Straighter players will find the strong backend of the Thrash very useful while the high rev player can take advantage of its extra length. We didn't invent the art of striking we just made it easier.

SPECS

HOOK RATING (DULL-POLISHED):	28 - 21
LENGTH (1-10):	6
BACKEND (1-10):	8
CORE TECHNOLOGY:	Flare Ring Technology
