

HOW TO
THROW A POWERFUL
HOOK
BY "SUGAR RAY"
LEONARD

The K.O. Punch features our new "Power Punch" modified 2-piece core technology. Our enhanced POWERPLUS II with Gold Mica coverstock is wrapped around this new core, creating a devastating yet controlled backend reaction. This ball is perfect for today's lane conditions. From the first game of the league when there is heavy oil in the front part and hooking backends, until the third game when the conditions have broken down in the heads and the oil has carried down. The K.O. Punch — it's got champion written all over it.

EVOLUTIONARY. REVOLUTIONARY.
