

No one thought it was possible to pack this much technology into a ball.

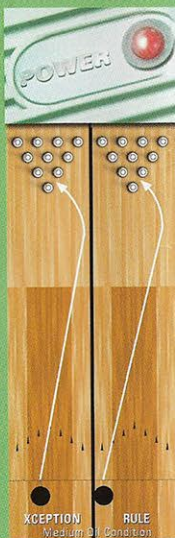

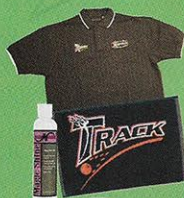

Your search for bowling's Holy Grail - a high-performance 1-2 punch - is over.

Track technology gives you the Xception and the Rule. Complementing the power and performance of the Rule in heavier-oil conditions, the Xception offers exceptional hook potential in medium-oil conditions. Our new, evolutionary GoodS reactive coverstock houses the same high-riewing, angular Morpheus 2.0 rev lever core as the Rule. Long and strong, GoodS retains energy and maintains mid-lane consistency better than the competitive high-performance products. Get the confidence you need to open up the lane as it transitions. Get the Xception. Performance you've grown to expect from Track.

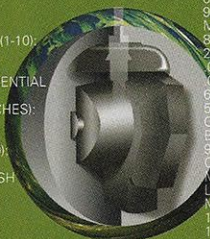

EVOLUTIONARY. REVOLUTIONARY.
