

Triple in the Tenth!

Triple X Factor™

STORM's worldwide domination of competitive bowling (including 5 out of 10 victories in the fall 2003 PBA Tour) indicates the superior nature of STORM® equipment. Let the power of STORM help you realize your full potential.

The new super aggressive MONSOON™ Pearl coverstock performs better in today's bowling environment.

Matching this powerful coverstock to the new inverted RAD3 Triple Disk Technology weight block produces a massive backend flip for extreme entry angle.

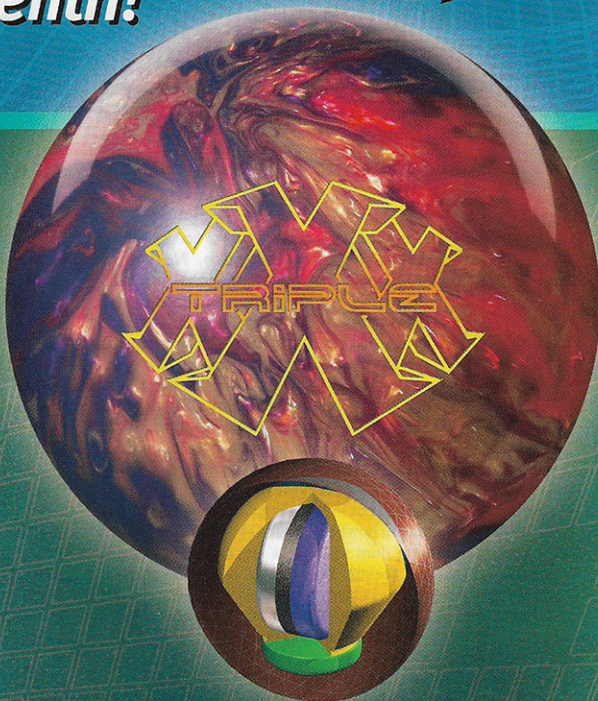

The Triple X Factor by STORM — sit back, relax, and HANG ON!

FEATURES

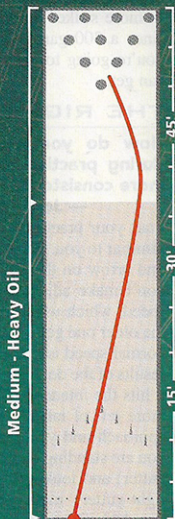

1. MONSOON™ Pearl Coverstock
2. Inverted RAD3 Triple Disk weight block
3. Strong preferred spin axis

BENEFITS

1. MONSOON™ is softer — enhancing over-all performance
2. MONSOON™ has strength and durability
3. MONSOON™ is versatile and easy to adjust
4. MONSOON™ generates optimum entry angle in heavy oil
5. New inverted RAD3 technology maintains strong dynamics for all types of layouts and desired drillings.
6. Strong preferred spin axis with mass bias differential of .018 allows you more entry angle.
