

GLOWING AMULET

This dry lane/spare ball is another breakthrough from Visionary.™ The Gargoyle™ inner core is surrounded by a larger wrap and covered in a new phosphorescent hard urethane cover (patent pending) that truly "glows-in-the-dark".

(Contains No Radioactive Materials)

COMING SOON

CHARCOAL EXECUTIONER™

We've encased the core from the Crimson Executioner with a dull non-pearlized reactive coverstock, producing a more even and earlier reaction with less over/under.

COMING SOON
