

Dear Visionary Customer,

Visionary Bowling Products, LLC., is proud to announce the availability of our newest ball called The Crow. This ball uses the same Ogre HDC core found in the Raven line, along with our HPU Throwback urethane coverstock to produce a strong, yet very smooth and controllable reaction. Don't be fooled, this one still packs a punch and can be used on a wide variety of lane conditions.

Everyone says urethanes are a thing of the past...outdated...won't carry well enough. Well it's time to pull this one out of the bag and make your competition eat CROW!
