NEW

## Reach for the Roto-Star X-3 and turn spares into strikes

When you're looking for high-power performance, add a little "snap" to your game with the new Roto-Star X-3, the ball that gives pins a "double bang." The X-3's unprecedented design features a soft urethane outer shell wrapped around a tough polyester inner shell. Upon impact, the two compress and "snap back" for an exceptionally hard hit that downs more pins. The Roto-Star X-3 boots every bowler's power and performance because it:

- "Inner shell" increases acceleration
- "Inner Shell" eliminates wobble
- "Double Shell" hits hard
- "Double Shell" keeps pin trajectory low for better action
- "Outer Shell" works on wood or synthetic lanes
- "Double Shell" downs any weight pin
- Adapts to right- or left-hand bowlers
- Meets all ABC specifications

See for yourself. See how much better your performance can be on the lane. See the X-3 "slice" at your pro shop TODAY and ask for Roto-Grip's exclusive "Tips to Make You Tops."
